Adhere to the code, practice quality.

Mini Jet Turbo Fan

Product parameters

- Power:105W
- Battery: 1100mAh
- Charging voltage/current: 5V/2A
- Operating voltage/current: 12V/5A (maximum power)
- Material: Aluminum alloy
- Finish:Anodisation

Electric Air Computer Duster

Product parameters

- Power:105W
- Battery: 1100mAh
- Charging voltage/current: 5V/2A
- Operating voltage/current: 12V/5A (maximum power)
- Material: Aluminum alloy
- Finish:Anodisation

Portal Wireless High-speed Dust Blower

Product parameters

- Power:105W
- Battery: 1100mAh
- Charging voltage/current: 5V/2A
- Operating voltage/current: 12V/5A (maximum power)
- Material: Aluminum alloy
- Finish:Anodisation

Jet Turbine Dust Blower

Product parameters

- Power:105W
- Battery: 1100mAh
- Charging voltage/current: 5V/2A
- Operating voltage/current: 12V/5A (maximum power)
- Material: Aluminum alloy
- Finish:Anodisation

Jet turbine Dust Blower Vacuum Cleaner

Product parameters

- Power:105W
- Battery: 1500mAh
- Charging voltage/current: 5V/2A
- Operating voltage/current: 12V/5A (maximum power)
- Material: Aluminum alloy
- Finish:Anodisation

Mini Turbofan Dust Blower

Product parameters

- Power:105W
- Battery: 1100mAh
- Charging voltage/current: 5V/2A
- Operating voltage/current: 12V/5A (maximum power)
- Material: Aluminum alloy
- Finish:Anodisation

Jet Turbine Dust Blower

Product parameters

- Power:105W
- Battery: 1200mAh
- Charging voltage/current: 5V/2A
- Operating voltage/current: 12V/5A (maximum power)
- Material: Aluminum alloy
- Finish:Anodisation

Mini Jet Turbo Fan
